**TENSOR AWARDED ITS LARGEST ORDER IN FINLAND**

**WOODRIDGE, IL (September 9, 2007)** – Tensor Group, Inc. announces the sale of a new pressline in Finland. Pyhäjokiseudun Kirjapaino Oy recently purchased seven Tensor T-400BE 4-high towers, two H-50 heavy-duty jaw folders and auxiliaries to be installed in its plant in Kajaani, Finland. Sold through agent AB Wamac Suomi Oy, this will be the largest Tensor pressline to be installed in Finland.

Founded in 1964, Pyhäjokiseudun Kirjapaino Oy is a contract print shop for local newspapers in the Northern part of Finland. In 2000, they purchased Oulun Kirjateollisuus Oy, a print shop in Oulu, and merged it with their facility in Oulainen. Earlier this year, they purchased the business operation, including machinery and equipment, of Kainuun Sanomat Newspaper printing house, a division of the Alma Media Group in Kajaani ([www.almamedia.fi/home](http://www.almamedia.fi/home)). Pyhäjokiseudun Kirjapaino will now be contracting with Alma Media to print their local newspapers.

The new Tensor press will consist of seven T-400BE 4-high towers, two H-50 heavy-duty jaw folders with quarter folders, Inventor Graphic spray dampening, a DCOS footprint shaftless drive system, Perretta automatic register control and remote inking and two Motterstitch stitchers.

The installation will begin in early 2008.

Pyhäjokiseudun Kirjapaino Oy will primarily print high quality 1/2 and 1/4 folded tabloids as well as broadsheet newspapers like Kainuun Sanomat. After visiting comparable Tensor press sites in Scandinavia, Pyhäjokiseudun Kirjapaino Oy was impressed with the technical solutions Tensor offered. The local support they will receive from AB Wamac Suomi Oy also helped finalize their decision to purchase a Tensor press.

Tensor Group, Inc. is a privately held manufacturer of single width web offset press equipment for commercial, insert and newspaper markets worldwide. Equipment is manufactured exclusively in the United States. Over 2000 units have been successfully installed in more than 25 countries since Tensor's inception in 1993. For additional information on Tensor equipment, visit the website at [www.ustensor.com](http://www.ustensor.com) or call the corporate office at 630-739-9600.
